REPUBLIC OF ESTONIA MINISTRY OF FINANCE

RIGA CITY COUNCIL

"E-invoices have significantly reduced the time spent on processing purchase invoices by the accountants of the National Support Services Center. Machine readability ensures an error-free exchange of invoice information between the seller and the buyer, the purchase invoice process is clearer and more controllable. We want to enable our customers to focus on their core business by offering effective solutions for the organization of support services, precisely through the digitization and automation of processes."

Marek Ilves, Head of the economic software development department, Ministry of Finance.
